

WONDER ME

What is it?

Wonder.me (<https://www.wonder.me/>) is the online platform that will be used to have informal chats in between the conference sessions, for those who wish to.

Together with the Zoom link, participants will receive a link and password to login into the virtual room, wonder around the areas and join their colleagues to have as many conversations as they wish.

How to?

IMPORTANT: Safari does not support this platform, we suggest using Chrome.

Click on the link you will receive to open the virtual room. This link will be circulated to all registered delegates in advance.

Type in the password received via email.

Set up your profile picture

YOU'RE IN!

You will see the room divided into 5 different areas and (hopefully) plenty of avatars of other participants.

Feel free to wander around and go from area to area!

The areas have been set up only to have a better spatial division of the virtual room, making it easier for participants to join in conversations, instead of leaving you roaming a huge virtual space filled with wandering avatars.

There is no specific topic to follow in the different rooms.

To interact, move your avatar onto that of another participant to start a **circle**. Or simply enter an 'area' (ie. the Balcony) and join others who are in that space.

Automatically, the screen will split horizontally, the cameras and microphones will turn on, and you will be able to see and speak with each other in the upper part of the screen.

Circles are randomly created by participants and can host up to 15 people.

To leave the conversation, move your avatar away from the circle.

To join a different circle, move your avatar to a different group of participants.

By moving the arrow onto another avatar, you can invite them for a conversation, or send them a message.

To exit the room, move on the bottom right of page and click on 'Leave room'
